Dear ###,

My name is Willem Fargo, a 2022 Cornell University graduate with an immeasurable passion for digital technology.

I am seeking consideration for the ### position at ###.

While at Cornell, I focused on building my programming toolset, garnering knowledge on modern data science tools, and exploring the fundamentals of quality user-centered design. I have exposure to a broad set of programming languages, being most proficient in Python, Java, SQL, and C#.

My incredibly illuminating internship at Cambridge Semantics offered exposure to real-world problem solving with data analytics in a team environment, fueling my overarching interests in humanitarian applications of data analysis and human-computer interaction.

Aside from academics at Cornell, I spent my free time playing Div I football, driving for GrubHub, being an active member at my fraternity, getting my Scuba certification, and catching the occasional Mahi Mahi in the Florida Keys.

I am a standout candidate with unique experience and flawless references.
I am very interested in the ### position and look forward to talking in more detail.

Best regards,

Willem Fargo
